Summary

- Android Developer with 3+ years of experience in designing, developing, and optimizing high-quality mobile applications that meet user needs and business goals.
- Proficient in Kotlin, Java, and Android development tools like Android Studio, Jetpack Components, Jetpack Compose and Firebase. Experienced in integrating RESTful APIs, optimizing app performance, and resolving complex issues in large-scale projects.
- Passionate about problem-solving and creating exceptional user experiences. Continuously learning and applying new technologies to improve skills and deliver innovative solutions.

Projects

NEW NEWS APPLICATION: BAO DT CHINH PHU, BAO THANH NIEN, BAO GIAO THONG, BAO TH THANH HOA

2022 - Now

Role: Developer

- Some main application:
  - Bao DT Chinh Phu: The press and media agency of the Vietnamese Government, a forum for the people and businesses
  - Bao Thanh Nien: Thanh Nien is Vietnam's leading newspaper, where you won't miss any breaking news or important updates
- Team size: 13
- Link:
  - https://play.google.com/store/apps/details?id=vn.chinhphu.baochinhphu&pcampaignid=web_share
  - https://play.google.com/store/apps/details?id=vcc.mobilenewsreader.thanhniennews&pcampaignid=web_share
- Technology: Kotlin, Dagger-hilt, Coroutine, Flow, OkHttp, Retrofit,...
- Responsibilities:
  - Developed Android base project apps using MVVM architecture with Kotlin, ensuring clean and scalable code
  - Integrated third-party SDKs for advertising, video streaming, and audio playback to enhance app functionality.
  - Consumed RESTful APIs to retrieve and display data, ensuring seamless back-end integration.\
  - Enhanced app security through C++ module: data encryption, secure API communication, and user authentication.

NEWS APPLICATION: KENH14, CAFEF, GENK, SOHA,...

August 2021 - Now

Role: Developer

- Some main application:

- Kenh14.vn - The largest Vietnamese news site, aggregating daily news and updates targeted at young audiences in Vietnam. Kenh14.vn delivers ultra-fast news and exclusive breaking news across diverse categories, updated continuously every hour and minute.
- CafeF application provides financial, stock market and economic information. Users can track market indices, stocks, financial news, and many other related details on their phones

- Team size: 13
- Link: https://play.google.com/store/apps/developer?id=VCCORP&hl=vi&gl=US&pli=1
- Technology: Kotlin, Jetpack Compose, Dagger-hilt, Coroutine, Flow, OkHttp, Retrofit,...
- Responsibilities:
  - Developed Android apps using MVP architecture with Kotlin and Java, ensuring clean and scalable code
  - Designed and implemented native stock charts (e.g., candle charts, line charts, bubble charts) using Jetpack Compose for a seamless user experience.
  - Integrated third-party SDKs for advertising, in-app payments, video streaming, and audio playback to enhance app functionality.
  - Consumed RESTful APIs to retrieve and display data, ensuring seamless back-end integration.
  - Utilized tools like Firebase, Figma, and Postman for development, collaboration, and API testing.
  - Programming according to requirement and implement additional functionalities.
  - Maintaining and upgrating project's components.
  - Reviewing code and mentoring junior members to ensure product's quality

BASE KMP ANDROID APP
January 2025 - March 2025

Role: Create, Developer

- A Kotlin Multiplatform project capable of building applications for iOS, Web, and Desktop platforms.
- Team size: 1
- Link: https://github.com/vuxbasnin/base_kmp_app
- Technology: Kotlin, Jetpack Compose, Koin, Ktor, Sqlite, Room Database,...
- Responsibilities:
  - Developed Android applications using MVI architecture with Kotlin.
  - Designed and implemented a shared codebase for cross-platform compatibility.
  - Integrated Ktor for network operations and Room Database for local data storage.
  - Utilized Jetpack Compose for modern and responsive UI development

Work experience

VCCORP
July 2021 - Now

Android developer

- Build base project
- Develop news application on mobile devices using Kotlin language
- Implement and develop new features
- Maintain and fix errors that arise
- Use Gitlab for source code management and teamwork
- Stack: Kotlin, Android Studio, Jetpack Compose, Firebase, Figma, Postman...

FPT SOFTWARE
January 2021 - June 2021

Fresher Android - Kotlin

- Training fresher Android - Kotlin at FSoft
- Developed interpersonal skills by engaging in role-play exercises and peer feedback sessions, boosting communication abilities.
- Attained a TOEIC score of 550 and improved communication skills.

Honors & Awards

Staff of the year 2024

Awards Prize for Student of 5 merits 2020

Education

HANOI UNIVERSITY OF BUSINESS AND TECHNOLOGY - HUBT   August 2017 - May 2021

Software Engineering

- GPA: 3.2/4.0

CHUYEN BAC NINH HIGH SCHOOL   August 2014 - May 2017

Biology expertise
